Professional Summary

Dedicated to solving business problems with data, with a foundational background in Python, SQL, and machine learning model evaluation. Experienced in exploratory data analysis, data cleaning, and transforming raw datasets into interactive dashboards and actionable insights using Power BI.

Technical Skills

Programming Languages: SQL, Python

Python Libraries: Scikit-learn, Pandas, NumPy

Machine Learning: XGBoost, Random Forest, Machine Learning, Decision Trees, K-Means, Model Evaluation, Logistic Regression

Data Analysis: Hypothesis Testing, EDA, Statistical Analysis

Data Visualization: Power BI

Databases: MySQL, PostgreSQL

Version Control: GitHub, Git

Tools: Jupyter Notebook, VS Code, Excel

Projects

Bank Loan Prediction

Snowflake SQL, Power BI

- Processed 500+ loan records using SQL queries, performed data cleaning, transformation, and prepared datasets for analysis to identify default patterns.
- Developed a risk scoring system and engineered an automated Power BI dashboard with 8+ visualizations, achieving 85% default probability correlation and reducing manual reporting time by 70%.

Phishing Prediction Model

Python, Machine Learning, Streamlit

- Engineered URL-based features and performed feature selection to optimize model performance for detecting phishing websites.
- Evaluated models using manual methods and Microsoft's FLAML library, achieving 94% accuracy with XGBoost on unseen data.
- Deployed the machine learning model via a Streamlit app to enable real-time detection for browser security and email filtering systems.

Cement Concrete Strength Model

Python, Machine Learning

- Performed advanced EDA and statistical modeling to quantify curing-rate correlations and transform raw data for concrete compressive strength prediction.
- Architected a predictive pipeline using XGBoost and integrated DVC for automated data lineage and reproducibility, achieving 91% predictive accuracy.

Education

B.E. — University of Mumbai, India

2021 - 2025

Computer Engineering, Grade: 7.01/10.0 **Higher Secondary Certificate (H.S.C.)** — Maharashtra State Board
2019 - 2021

Grade: 85.5% **Secondary School Certificate (S.S.C.)** — Maharashtra State Board

2019

Grade: 70.0%

Certifications

- Deloitte Data Analytics Job Simulation (2025)
- SQL Mastery, IT Vedant (2025)
- Power BI Essentials, IT Vedant (2025)
- Python Essentials for Data Science, IT Vedant (2025)
